### HEAR WITHOUT EARS

Police and Detectives Are Using Lip Reading in Place of the Dictograph

Thousands of deaf people are today throwing away all hearing devices and enjoying no conversation. This method is easily and quickly acquired through our system. Absolutely the only thing of its kind in the country. Our proposition is entirely original. We guarantee results, it will amaze you. Cost is trifling. See what New International Encyclopedia says on Lip Reading. Hundreds of people with normal hearing are taking up Lip Reading for the many additional benefits gained. You can understand what people are saying just as a deaf person are saying just as far away as you can see them. The eye understands beyond the range of hearing. Send no money, but mention this paper and state whether or not you are deaf. All particulars will be sent you absolutely free and with no expense to you. Address, School of Lip Language, Kansas City, Missouri. 31-1f

the article of last week giving the account of the boys of Alma who had been stealing old metal and selling it the local junk dealers. It stated the boys "acted as agents", this is not a fact and was added by an employee of the office and unknown to the editor until his attention was called to it. The Record has no desire to discredit these gentlemen, and nothing has developed in the case that would give any foundation for any collusion on their part with the boys.
